

Integrating Europe

Potential and Performance
of the Social Sciences in the Process
of EU Enlargement

23 - 26 November 2003

**TechGate
Donau-City-Straße 1
A - 1220 Vienna
www.techgate.at**

**Kongress der Österreichischen Gesellschaft für Soziologie
Austrian Sociological Association
www.oegs.ac.at**

The Congress of the Austrian Sociological Association 2003 is organised as a full 3-day event - two days will be held as an international conference, the third day is dedicated to Sociological Excursions and a parallel conference Austrian topics. The focus will be on two questions of both scientific and practical relevance:

- **What can sociology and related social sciences contribute to the processes of social change in Europe? And how?**
- **What are the effects of socio-economic and political change in Europe on social sciences?**

The programme will address core themes of the 6th Framework Programme centring around four topics relevant also for the development of social science:

- **Employment and Labour Markets**
- **Migration and Mobility**
- **Constitution, Cohesion and Conflicts**
- **Science and Technology Policies of the ERA**

During the Conference a paper will be presented and open to discussion which will also be available online prior to the conference under the title „**Declaration on the Position of Social Sciences and Humanities in the ERA**“.

The Congress will offer consortia of ongoing projects in FP5 and future projects in FP6 the opportunity to meet and network. The Congress website and on-site facilities will support these “**Networking Meetings**”.

On 26th of November, while the Austrian conference is being held (in German), international and other interested participants will have the opportunity to take part in „**Sociological Excursions**“ (guided tours to sites of historic or currently pertinent social research in the region of Vienna, e.g. public housing and city planning, social partnership organisations, Marienthal).

Another innovative component is development of a **Prize of the Austrian Sociological Association** for best dissertations to promote sociological research and improve the quality of dissertations.
